

## BACH HORN SPEAKER

---

*Audimaxm engineers have always had a particular preference for horn type loudspeakers.*

*Horn type tweeter with a large size woofer speakers, that kind of loose, strong, atmospheric sound, wide frequency response, extremely exciting dynamic range, are incomparable with small-size speakers.*

*However, how to make these highly sensitive horn tweeter produce delicate and elegant timbre like soft dome speakers, and how to reduce the intermodulation distortion caused by high compression ratio of horn treble is a challenging task.*

*After four years of hard work, audimaxim engineers have developed this set of 75mm beryllium tweeter driver, linear waveguide horn, and low distortion 16 inch paper cone woofer speaker with lightweight linear displacement rubber overhanging edge, which perfectly combines the advantages of horn speaker and traditional dynamic loudspeaker, bringing you incomparable sound enjoy.*

## BACH Specification

• Driver components	75mm beryllium Horn driver x1 , 16" Wooferx1
• Frequency	20-20000Hz±3dB
• Impedance	8Ω
• Power Handling	300W
• Sensitivity	99dB
• Finish	High Gloss Paint
• Dimensions	1148(H)*574(W)*732(D)mm
• Shipping dimensions	1535(H)*855(W)*1010(D)mm
• Net weight	90Kg /each
• Shipping weight	124Kg /each
