

SERENADE 6.2 Floor standing loudspeaker

3-way 4-component loudspeaker, floor standing design.

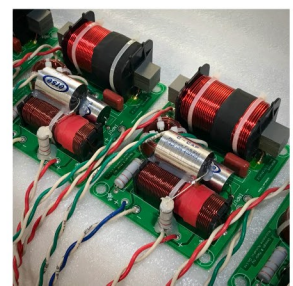

The front and rear loudspeaker components are adopted.

The front 6.5 inch midrange woofer speaker is made of Danish VIFA top-grade paper wood fiber cone unit. The dual fold ring linear displacement rubber hanging edge makes the midrange timbre charming and the speed dynamic is excellent.

The special dual folded loop silk tweeter, combined with specially designed aluminum horn, has better frequency response and dynamic range than traditional soft dome tweeter.

The front and back sound generation design simulates the acoustic characteristics of the concert hall, making the sound field perform particularly well. The narrow and long non-uniform surface cabinet design reduces the standing wave interference in the box and the sound wave diffraction of the panel.

Noble bright piano paint finish, fashionable and simple modeling design, more suitable for modern, home style.

• Driver components	1"Dome Tweeterx2 , 6.5"Midrange Wooferx1 6.5"Wooferx1
• Frequency	30-30000Hz±3dB
• Impedance	4Ω
• Power Handling	160W
• Sensitivity	89dB
• Finish	High Gloss Paint
• Dimensions	1057(H)*255(W)*382(D)mm
• Shipping dimensions	1170(H)*430(W)*555(D)mm
• Net weight	22Kg /each
• Shipping weight	34Kg /each
