

C-3 Portable Bluetooth speaker

The cabinet with scientific and technological leather veneer, handle made of cow leather, handle screw made of stainless steel, four convex stainless steel buttons on the top, four speakers arranged symmetrically, and corner radian determined by repeated deliberation. Through these seemingly simple but delicate details, audimaxim designers present a unique taste of retro and slightly luxurious style.

C-3 is not only a high-quality portable Bluetooth speaker, but also a fashion ornament in your life, which shows your personality and taste. Designers carefully choose a variety of colors, no matter what personality you are, it can show you...
